

Marian Road

Species Name	Common Name	Water	Height	Bloom time	Bloom color	Root depth	Nitrogen-fixing
Viola sororia v. priceana	common blue violet	wide ranging	4"	early spring (April, May, June)	purple		
Zizia aurea	golden alexander	mesic	3'	May and June	yellow	medium	
Geranium maculatum	wild geranium		12"	late spring	pink	shallow	
Pedicularis canadensis	Wood Betony		12"	early spring (April, May)			
Chelone glabra	white turtlehead	hydric	2-3'	mid-summer (July, Aug., Sept)	white	taproot medium and rhizomes	
Verbena hastata	blue vervain		4'	mid-summer (July)	purple	fibrous and rhizomatous	
Lilium philadelphicum	wood lily		18-36"	mid-summer	orange	scaly corm; shallow	
Pycnanthemum muticum	clustered mountain mint; big leaf mountain mint	mesic	1-3'	July, Aug, Sept	pink/purple	shallow; stoloniferous	
Penstemon digitalis	foxglove beardtongue		4'	June, July	white	8" medium	
Solidago nemoralis	gray goldenrod	mesic; Cantonic xeric	3'	August, Sept., Oct.	yellow	caudex and fibrous	
Lespedeza capitata	round-headed bush clover	mesic	2-5'	August, Sept., Oct.	white	taproot; deep	yes
Eutrochium dubium	Coastal Joe Pye Weed	hydric	3-5'	July-October	pale purple	deep; medium (Canton)	

Species Name	Common Name	Water	Height	Bloom time	Bloom color	Root depth	Nitrogen-fixing
Symphotrichum novae-angliae	New England Aster	mesic	3-6'	August, September	purple	shallow; a stout caudex with fibrous roots; medium (Canton)	
Rudbeckia triloba	thin-leaf coneflower	mesic to hydric	2-3'	mid-summer	yellow	shallow	
Cirsium muticum	swamp thistle	hydric	7'	july, aug, sept	purple	taproot	
Helianthus decapitalus	thin-leaf sunflower		5'	july, aug, sept	yellow	fibrous and rhizomatous	
Phlox pilosa	downy phlox	all	2'	May june july	pink	taproot	
Rudbeckia hirta	black-eyed susan	xeric		june, july	yellow	medium	
Ionactis linariifolia	flax-leaved stiff aster	average to dry	15-20"	Aug., Sept. Oct	purple	fibrous	
Juncus canadensis	canada rush		2-3'			medium (Canton); clumping	
Carex annectens	small yellow fox sedge		2'			deep	
Carex cephalophora	short-headed bracketed sedge		16"				
Juncus tenuis	path rush		8-20"			6"	
Eragrostis spectabilis	purple love grass	xeric	2'	August, Sept		medium	

Species Name	Common Name	Water	Height	Bloom time	Bloom color	Root depth	Nitrogen-fixing
Sporobolus heterolepis	prairie dropseed; northern dropseed	xeric	2'	August, sept		deep

Species Name	A-sexual	Ph preference	Deer/rabbit resistant	Ruderal	Wildlife value	Notes	
Viola sororia v. priceana	rhizomatous	6-6-05	yes				Prairie Moon nursery 0.125 oz
Zizia aurea		acid-neutral		short-lived	black swallowtail; short-tongued insects	seed gravity, medium competitiveness (Canton)	Maine Wild seed 2 pk 100-200 seeds; Prairie Moon 1375
Geranium maculatum							Prairie Moon 3 pks 45 seeds each
Pedicularis canadensis							Prairie Moon 150 seeds up to 4625
Chelone glabra	rhizomatous	none; acid-neutral (Canton)	yes, yes			high competitiveness (Canton); gravity	Maine wild seed 2 pk; 100-200 seeds; sold out
Verbena hastata			yes, yes	yes			Maine wild seed 2 pk; 100-200 seeds
Lilium philadelphicum			no, no			prefers dry sites; only planting a few;	75 seeds Prairie Moon Nursery
Pycnanthemum muticum	stoloniferous	acid	yes, yes			gravity	Maine Wild seed 2 pk 100-200 seeds
Penstemon digitalis	medium	medium-acidic	yes			prairie moon nursery says medium to medium-dry soil; Canton says mesic; medium competitiveness	Maine wild seed 2 pk 100-200 seeds; also Prairie Moon
Solidago nemoralis		acid-neutral				medium competitiveness; wind	250 seeds Prairie Moon
Lespedeza capitata		none	no, no			medium competitiveness	Prairie Moon 400 seeds
Eutrochium dubium		acid	yes, yes			Maine Wildflower seeds says part shade; Canton says medium	Maine wild seed 2 pk; 100-200 seeds

Species Name	A-sexual	Ph preference	Deer/rabbit resistant	Ruderal	Wildlife value	Notes	
Symphotrichum novae-angliae		acid neutral	yes,			high competitiveness	maine wild seed 4 pk 200-400 seeds;
Rudbeckia triloba		6-8	yes	yes		high competitiveness; not native to this area	maine wild seed 2 pk; 100-200 seeds
Cirsium muticum		calcareous; Canton says acid-neutral	yes	yes		biennial, shortlived; prefers sandy soil	Prairie Moon 50 seeds
Helianthus decapitalus		acidic neutral	yes/yes			can be trimmed	toadshad wildflower farm 3 packets
Phlox pilosa		acid-neutral	yes/no			Gobotony says doesn't really appear in NE except CT; suffers from root rot if there's a wet spring	ordered 300 seeds from Prairie Moon Nursery
Rudbeckia hirta		acid-neutral		yes		low competitiveness	orderd 92,000 from Prairie Moon
Ionactis linariifolia		acidic	yes/yes			sandy or rocky habitats	wild seed project
Juncus canadensis		acidic	yes/no			hydric; cool season growth so it will be easily confused with the turf grass	1000 Prairie Moon
Carex annectens		none					500 seeds Prairie Moon; up to 5625
Carex cephalophora							500 seeds Prairie Moon
Juncus tenuis							Prairie moon 1000
Eragrostis spectabilis		acid-neutral				medium competitiveness	Prairie Moon Nursery 500 seeds

Species Name	A-sexual	Ph preference	Deer/rabbit resistant	Ruderal	Wildlife value	Notes	
Sporobolus heterolepis		acid-neutral				has a nice smell; medium competitiveness	Prairie Moon Nursery 2050 seeds
